Multiple Outline Lettering

NOTES:

Downloading a Font

- Visit dafont.com.
- Type Prisma in the Search box.
- Click Search.
- Click on Download on the right-hand side of the screen.
- The font downloads to your Download folder.
- Prior to opening the software, install the font.

Installing the font

- Navigate to your Download folder.
- Right click and select Extract.
- Place the extracted folder in the Download folder to make it easy to install.
- Click Extract.
- Open the unzipped folder.
- Select Prisma.ttf. Right click and select Install for All Users.
- Open the software.

Using the True Type Font

- Open a New Blank Design.
- Switch to Artwork Canvas.
- Select Vector Lettering.
- From the drop-down font choices in the Property Bar, select Prisma.
- Place a check mark by Artistic Text. Click OK.
- Type on the screen, NOEL in all caps.
- Select the Pick tool.
- Activate Lock Ratio.
- Change the height of the lettering to 1.25”. Press Enter.

If the vector lettering is converted, satin lines, not running stitches will be created.

Converting to a Bitmap

- Select the lettering.
- Select Bitmaps> Convert to Bitmap.
- Click OK.
- Switch to Embroidery Canvas.

Magic Wand Centerline

- Select Magic Wand Centerline in the Auto-Digitize Toolbox.
- In the Bitmap Artwork Preparation box, change the Number of Colors to 2. Press OK.
- Zoom in and click on each line of lettering. Some of the lines are connected to other lines. Any connected lines will only have to be clicked on once.
- Press Esc.

Editing the Lettering

- Select the lettering in Color Film.
- Open Object Properties.
- Change the Single Length to 2.5 mm.
- Click OK.

Break Apart and Blackwork Run

- Blackwork Run cannot be applied to the letters without first breaking the letters apart.
- Draw a bounding box around the letter N.
- Select Break Apart in the Edit Toolbox.
- Reselect the letter with a bounding box.
- Select Blackwork Run.
- Click on one of the connected lines of the letter to tell the software where to begin the stitching.
- Do this for each letter.
- There will be short jump stitches that will not be trimmed between the separated lines of lettering. There will be tie-ins and offs inserted, but these can be trimmed with a pair of scissors if you wish.
- Select File> Save as and name the file Multiple Outline Lettering.

NOTES:
