What's New
V1.04.97
- Check For Updates- if updates are available, the software will automatically display an update notification. Internet connection is required for this feature.
  - Update process improvements
- By-pass for "Trim Required" machine status. Should you encounter a "Trim Required" message, it may be by-passed using the keypad command of Adjustment Key + Hoop Key.
- 3D Puff – there are dual buttons for the 3D Effect application. There is now an option for 2mm thinner foam and 3mm thicker foam.
- Adjustment of thread break sensor readings to reduce false upper and lower thread breaks.
- Bobbin case recommendation change. There has been a change in the construction and location of the pigtail angle on the new E 16 bobbin case.
- Single Stitch Filtering- a single stitch that is flanked by jump stitches will now be filtered out to avoid needle breaks.
- Addition of the following Mighty hoop
  - 7.25" x 7.25"- 18.4cmX 18.4cm
- Compatibility with Windows 10

Update Process

To Update the BERNINA E 16 UI / OS :

1. Make sure that you have Internet Connection to update Online.
2. Attach the BERNINA E 16 dongle.
3. Check to insure that the Emergency Stop on the Control Panel is released.
4. Open the BERNINA UI. When the "?" question mark appears on the screen, turn on the machine.
5. Proceed to the Advanced Setting Screen.

6. Click on the Update Icon

7. Follow the instructions on screen

8. Machine is ready for stitching.
