

Double your PROFIT

Anyone that is in the Sewing industry knows that there is a lot of time taken up with the threading of needles. When threading the needle is taking up time it decreases the time for clients, which can decrease revenue. Any time that someone hires an assistant to thread needles, the assistant needs to be paid, which decreases the earning potential for the one doing the work.

An easy to use machine that is stationed with three colors of the user's choice. It automatically threads your needle, pulls your thread to the desired length, knots your thread and cuts it. The machine is powered by a plug or batteries, with the additional option of a USB port. This allows more time for the person doing the work to make money doing what they love in a timely manner.

We are actively seeking partners.
