#### bernette London 8

The computerised bernette London 8 is the flagship model of this bernette line. It offers everything creative sewers need, all at an excellent price/performance ratio. Remarkable for its high-quality construction and powerful needle-piercing power, the bernette London 8 features an extensive set of 155 stitch patterns. Decorative possibilities abound, with 25 decorative stitches (including an alphabet with numbers), all with a variable stitch width up to 7mm. The memory function lets you save up to 30 stitch settings and combinations. In addition to features like speed control, start/stop function and needle stop up/down, the bernette London 8 also offers an automatic securing function and an especially bright sewing light. Eight presser feet are included for most uses.

#### Stitch patterns

#### Semi-automatic threader

If only threading the needle were always this easy! Simply operate the threader and it effortlessly pops the thread through the eye of the needle!

#### Two-level presser-foot lift

For sewing particularly thick fabrics or multiple layers, the presser foot can be raised extra high (i.e. higher than the standard height for attaching the shank).

#### Flip-top lid and dust cover

Flip up the top lid for easy access to thread the machine, or to wind a bobbin. A convenient stitch chart is provided on the inside of the lid. Close the lid after sewing to protect your bernette from dust.

#### Recessed handwheel

Used for manual operation of the needle, it underscores the simplicity of the blo:c design. What's more, the handwheel's recessed design is ideal for protecting it from damage.

#### Easy stitch selection

Selecting stitch patterns via the dial is simplicity itself. The number of the selected stitch pattern appears in a red digital display on the machine's white front.

#### Discover bernette London!

Four models with a striking look. A city world full of inspiration. That's the world of bernette sublime.

#### Prize-winning design

The bernette London 8 won the Red Dot Design Award in 2012. This award pays tribute to high design quality expressing innovation in form and function.

Discover the world of bernette sublime. Each model has so much to offer: robust construction, numerous functions and features, and a young design for all ages.

The bernette sublime sewing, embroidery and overlocking machines are made by a modern, highly qualified manufacturer in Asia, while BERNINA is responsible for quality control and guarantees a high standard of performance. Thus it is possible to offer the bernette sublime Series to our customers at an outstanding price/performance ratio.

The bernette London Series will wow you with its striking 'blo:c' look. Its sleek white exterior gleams like lacquer, set off by black accents. The red digital display shines through the white surface.

#### 6 decals for even more individuality

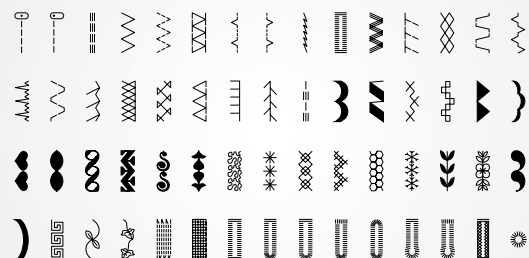

For each model there is a set of 6 decals with different London designs that are easy to stick onto your machine and peel off again, and which will lend a unique look to your bernette London.

#### bernette London 7

A computerised model for discerning sewers, the bernette London 7 includes 60 stitch patterns with a generous stitch width up to 7mm, for wonderful creative embellishments. A window allows you to check the amount of thread remaining on the bobbin at any time. The convenient start/stop function lets you control the stitching process without a foot control. The needle-stop up/down function enables you to specify the position of the needle when you stop sewing, a particularly useful feature for decorative work and when sewing corners. In addition, the sewing speed is infinitely variable to suit both the fabric and level of difficulty of a project. Six presser feet are included with the bernette London 7.

LONDON 7

LONDON 5

#### bernette London 5

With its 28 stitch patterns and wide range of functions, the bernette London 5 offers an extensive array of creative possibilities. The more advanced of our two mechanical models, the bernette London 5 is ideally suited to beginners who need more features at an affordable price. The six decorative stitch patterns can be sewn at variable width up to 5mm. The needle threader and the automatic buttonhole function with length-measuring system make sewing easier. Six presser feet are included with the bernette London 5.

#### Stitch patterns

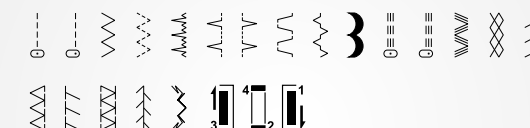

LONDON 3

#### bernette London 3

The bernette London 3 is a mechanical sewing machine and the entry-level model of the bernette London series. With 21 stitch patterns – 19 utility and 2 decorative – and a maximum stitch width of 5mm, it offers excellent basic functions at a very affordable price. The clear layout and user-friendliness of this machine make it the perfect choice for newcomers to sewing. It's simplicity itself to thread the needle with the built-in threader. The standard accessories include four presser feet, one of them a buttonhole foot which creates beautiful, even buttonholes when used with the manual buttonhole function.
