BERNINA

1 kitty photo digitised with Colour PhotoStitch

363 stars designed with 3D Globe Effect 3 easily created textures with Couching

1 embroidery software for great designs

made to create BERN

BERNINA Embroidery Software 8 – more creativity in 3D

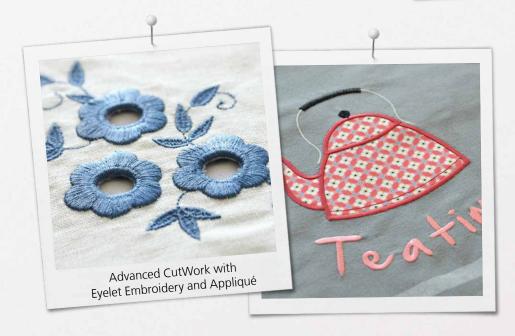

BERNINA Embroidery Software 8 offers an advanced range of great new features, including 3D effects, for unique surface embellishments. Turn your favourite photo into an embroidered treasure with the new Colour PhotoStitch feature. The new 3D Globe Effect brings pattern fills to life while the incredible Couching Effect lets you blend wool thread and embroidery in a beautiful combination. Make your monograms and letters stand out with Puffy Lettering and achieve outstanding results with the advanced CutWork functions. Use the PunchWork and StumpWork options to add special effects to enhance your embroidery.

These incredible software features are easy to use and navigate with the updated user-friendly interface. The positioning feature makes it easy to place designs where you want them. Creating large designs is simple using the Multi-Hooping feature which automatically places more than one hoop when necessary. Palette positions are numbered for easy reference within the new Colour Management system. Also embroidering on quilts just got easier with the Automated Quilt block layout feature.

There are no limits to your imagination with the BERNINA Embroidery Software 8 DesignerPlus. Apply special effects to artwork, add text, shapes and freehand drawing elements or trace bitmaps for unique multi-media projects. You can easily turn artwork from various graphic formats into embroidery designs in just one click using the Automatic Digitising tool. Preview your design as it would actually look on different items. Embroidery has never been easier and more fun.

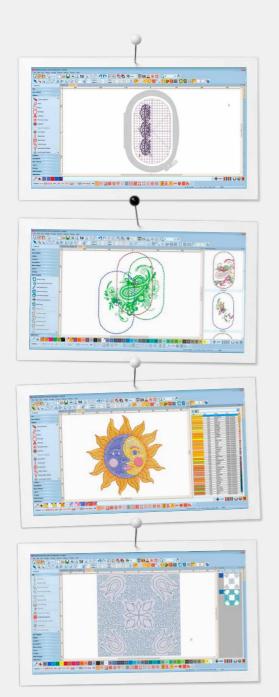

3D effects to your embroidered letters.

The new BERNINA Embroidery Software 8 packages consist of a USB stick and a product key card, which replace the traditional dongle. The USB stick is used for software installation and the product key card for activation. BERNINA Embroidery Software 8 is only available at the DesignerPlus level. For more information about installation, updates and/or upgrades, please contact your local BERNINA store or visit bernina.com/ V8.

Positioning

- Set the design worksheet and add a template to your preview
- Move and rotate the design within the hoop
- Use the advanced print preview options
- Use hoop template and basting stitch markers for exact positioning

Multi-Hooping

- Automatically places hoops to cover the entire design, fitting as many objects as possible into each hoop position
- Preview hooping sequence
- Multi-hooping options shortcut to the existing options dialog
- Save as complete design or as separate multi-hooping machine files

Colour Management

- Colour palette positions are numbered for easy reference
- Colour Wheel features a range of options
- Chosen colours are tagged with a blue marker
- Hide or show unused colours in the palette
- Easy to pick a colour and fill other objects
- Default colours in palette (56 + 3 appliqué)
- Horizontal or vertical layout

Automated Quilt Block Layout

- Automatic guilt background stitching used to create "echo" guilting designs, like scroll-clipped or stipple-filled quilt blocks
- Quilt block sizing and positioning aids

Integrated Design Library

- Improved and more powerful search engine
- Quicker access to all designs and enhanced design management
- Easy to browse, group and search for designs

User-friendly Interface and Improved Features

- Enhanced, intuitive and easy-to-manage menu
- Choice between small or large icons for a perfect view
- Tool names and functions can be displayed if desired
- More than one design can be opened at a time, easy switching between designs via design tabs

New Technical Features

- Compatible with Windows 8/10 and 4K monitors

Colour PhotoStitch NEW

Turn your best friend's photo into a realistic and detailed embroidery design. In just a few simple steps, the automatic digitising function transfers your photo into an easy-to-stitch embroidery design. Choose the colour and size, and the software does the rest.

Create a 3D look with the Globe Effect feature where flat embroidery is turned in a 3D design through a visual illusion.

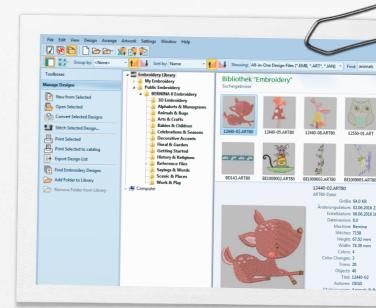

Create special embroidered effects with wool in combination with classic stitching. The wool threads pop out on your design for stunning effects.

The integrated Design Library offers quick access to all your designs, making it easy to browse, group, search or get inspired.
