BERNINA Embroidery Software 8 — more creativity in 3D

Now available on a USB stick, it includes an advanced range of great new features, including 3D effects, for unique surface embellishments.

Turn your favorite photo into embroidered eternity with the new Color PhotoStitch feature. The new 3D Globe Effect brings pattern fills to life while the incredible Couching Effect plays with wool thread and embroidery in combination. Your monograms and letters clearly stand out with Puffy Lettering and the advanced CutWork functions give your cut-outs outstanding results. Use the PunchWork and StumpWork options to add special effects in combination with embroidery.

The incredible software features are easy to use and navigate thanks to the updated user-friendly interface. The Positioning feature makes it easy to place designs in the right spot. Creating large designs is a cinch because of the Multi-hooping feature which automatically places more than one hoop for large designs. Palette positions are numbered for easy reference within the new Color Management system. And embroidering on quilts just got easier with the new Automated Quilt block layout feature. Whatever you imagine-you can do with the BERNINA Embroidery Software 8 DesignerPlus. Whether it's applying special effects to artwork, adding text, shapes, freehand drawing elements or tracing bitmaps for unique multi-media projects. Easily turn artwork from various graphic formats into embroidery designs in just one click using the Automatic Digitizing tool. Preview your design on different article options. Embroidery has never been easier and more fun.

The new BERNINA Embroidery Software V8 package consists of a USB stick and a Product Key Card, which replaces the traditional dongle. The USB stick is used for software installation and the Product Key Card is used for activation. BERNINA Embroidery Software 8 is only available at the DesignerPlus level. For more information about installation, update and/or upgrade, please contact your local BERNINA store or visit bernina.com/V8.
