Feel-Good Fashion

Just throw on a dress, adding a cosy jacket for cooler days, and hey presto, you've got your new spring outfit, which also happens to be wonderfully comfy!

7015 Dress

The airy-light fabric will flatter your figure, whilst the cord and bow set off the trendy bell sleeves. The decorative elastic in the side sections gives shape to the dress.

7016 Jacket

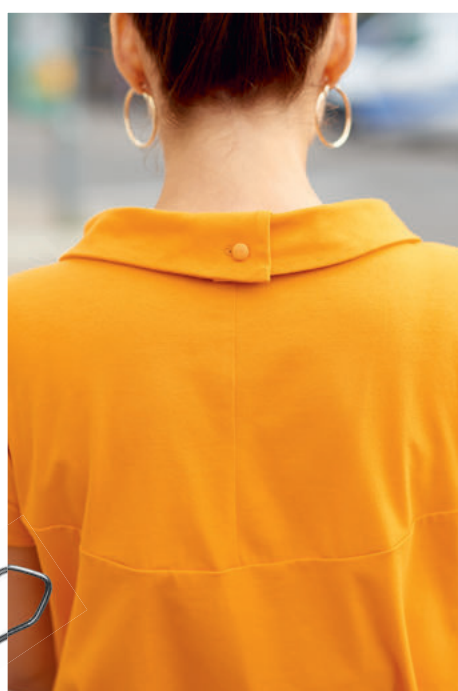

Coordinating beautifully with the dress, and comfortable and pleasant to wear, the red summer sweat fabric is ideal for jackets. Anyone who has ever sewn a shirt-collar blouse will also manage just great with this style.

Overlocker L460

A Cornucopia of Flowers

Bee, butterfly and dragonfly buzz round embroidered flowers that are so gossamer-light, yet vivid, that you can almost imagine picking them on a walk in the spring sunshine!

Guaranteed to give you a case of spring fever!

7012 Shirt

The overlocker makes quick work of sewing this jersey shirt, but it's the tailoring on the back and at the neck, and the embroidery in particular, that make this garment a real eye-catcher.

7013 Culottes

Hard to style? Nonsense! Make your legs seem short? Wrong! Culottes are one of the season's trendiest items, and thanks to the variety of patterns out there, these divided skirts are nowhere near as difficult to wear as many believe.

7014 Bag

The free-motion-embroidered flower, butterfly and dragonfly also embellish this high-quality bag made from hard-wearing faux leather. The handle and shoulder straps mean it can be worn in a variety of ways.

Return of the Dinosaur!

An old acquaintance makes a comeback in the kids' wardrobes! With their horns, armour plating and spiky tails – all that power and strength! – dinosaurs are a perennial favourite of little boys.

7030 Sleeveless shirt

Patches are totally "in" at the moment, adorning both clothes and accessories. With the BERNINA Embroidery Software, it's a breeze to make your own trendy patches with the wearer's favourite motif. Sew them on with open edges – it's quick, and makes for that certain "raw look".

7031 Shorts

Comfy shorts offer freedom when playing and romping about, as well as having that coveted casual look! The eyelets in the waistband are sewn with the Eyelet Embroidery Attachment, and are a nice – and classier – alternative to metal eyelets.

7032 Gym bag

A backpack like this will always come in handy for your little man. Roomy enough to hold his sports gear, toys or whatever's needed for a hike in the woods, its real highlight, of course, is that Mum can digitise his favourite dinosaur herself on it with the V8 Embroidery Software!

Made with:

- Coverstitch Machine L220
- Eyelet Embroidery Attachment

LIVING

Golden Times

Gold is all the rage at the moment, and we've tapped into this trend. In 2018 BERNINA celebrates its 125th anniversary – a jubilee that merits gold, we think – because a little sparkle in our daily lives does us all good!

7050 "Pineapple" picture

Metal-effect foil lets you conjure up a pretty picture in a flash. The big, decorative pineapple was created with BERNINA DesignWorks/CutWork in three parts and assembled into a whole. Even inexperienced sewers can bank on it turning out brilliantly!

7051 "Gold" picture

Anyone who owns an embroidery machine can whip up "Gold" in next to no time. The pretty candlewicking stitches are embroidered with gold thread, and stand out well from the background.

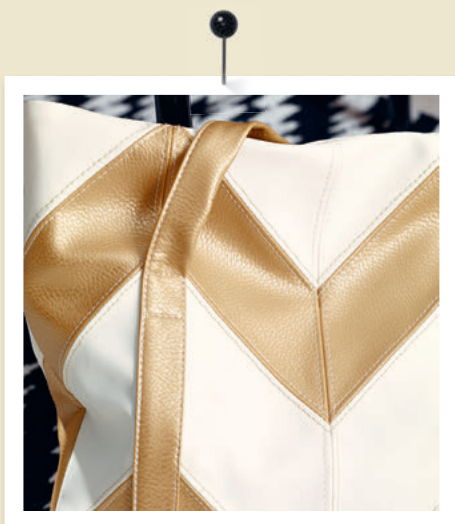

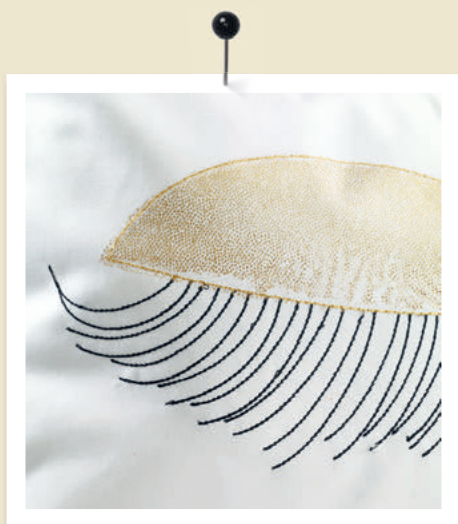

Tip: For metal threads, always use an SUK (medium ball-point) or Metafil needle and reduce embroidering speed.

7052 "Golden eyes" pillowcase

An ornament for any living room or bedroom, this big pillowcase with the stylish border is both elegant and witty. The embroidery in combination with the metal-effect foil ensures rapid – and positive – results.

7053 "Chevron" tote

A chevron design which you sew yourself adorns the front of this versatile bag. The remnants of the striped fabric thereby created are assembled into another distinctive pattern for the back. The topstitching is accomplished with the twin needle, which does the job twice as fast and with far greater precision than a single needle.

100% Natural

After years in the fashion wilderness, botany is once again flavour of the month! Time to open up to the magic of nature with all sorts of herb, grass, wildflower and leaf motifs that will instantly turn your living space into a green oasis.

7045 Picture

This picture will turn any wall into a wild-flower meadow. The embroidery is done with BERNINA Embroidery Software 8; use matte embroidery thread for an even more natural fashion statement.

7046 Notice board

A beautiful eye-catcher! The combination of pin board and mirror can be arranged entirely according to individual taste. We designed "botanical stamps" with BERNINA DesignWorks and the CutWork Tool for printing on the individual notice-board elements.

7047 Plant-pot cover

Spanish hemstitching is again becoming increasingly popular as detailing. Here, we particularly like the fact that the tin can is not completely covered, and radiates a subtle glow.
