EASY OVERLOCKING WITH A LITTLE PRICE TAG - SEW RIGHT FOR YOU

Cut, sew and finish edges on everything from fine silks and satin to denim, fleece and stretchy fabrics.

Enjoy fast, easy threading with the open thread guide, whether you're using 2, 3 or 4 threads.

Achieve smooth flat seams every time, thanks to the bernette's differential feed – no more 'waves' or puckering in knits and fine fabrics.

Easily change your tension, stitch length, stitch width and fabric feed at the flick of a wrist – even in the middle of your sewing. And effortlessly convert from overlock to rolled hem, without changing the stitch plate or presser foot.

Easy overlocking with a little price tag. So easy and so much fun to use, the bernette 610D will add a professional finish to all your sewing projects, at a price that's simply hard to believe.

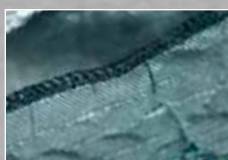

2, 3 AND 4 THREAD OVERLOCKING

TRUE PROFESSIONAL FINISH

ADJUSTABLE TENSION

SIMPLE THREADING

DIFFERENTIAL FEED

BEAUTIFUL ROLLED HEMS

The bernette 610D allows for extra-fine adjusting of your rolled hems.

ADJUSTABLE LENGTH OF EDGE-WRAPPING THREAD

Thanks to exchangeable overlock stitch fingers the thread amount of the edge-wrapping thread can be adjusted. Slack threads are history.

SMOOTH SEWING OF HEAVY FABRICS

bernette 610D's extra-powerful 120 watt motor can even cope with heavy fabrics (e.g. denim) without any difficulty.

2-, 3- AND 4-THREAD SEAMS

bernette 610D provides all seam types of professional standard – from 2-thread flatlock stitch for joining and hemming stretch fabrics up to the 4-thread overlock stitch for neatening edges. No more frayed edges and puckered seams!

CLEARLY ARRANGED CONTROL PANEL

This control panel is simple to use; the colour-coded markings make adjusting thread tension comfortable.

INTEGRATED EDGE GUIDE

The integrated fabric edge guide of the bernette 610D allows you to accurately guide the fabric to create extra beautiful seams. The guide can be removed in one simple move.

CONVENIENT SEAM-WIDTH ADJUSTMENT

Quick and easy setting of the seam width using the separate dial on the left side of the machine.

EASY THREADING

The swing-out front of the bernette 610D provides easy access to the threading paths. Colour-coded marking makes threading even easier.

WASTE COLLECTOR

Simply fit the provided waste collector onto the looper cover. This will keep your working area neat and tidy.

EXTRA LONG THREAD-SPOOL PINS

The extra long thread-spool pins can accommodate large 1000-m thread cones, enabling neat and reliable thread supply.

DIFFERENTIAL FEED

Stepless differential feed ensures pucker-free seams and allows deliberate gathering if required.

ACCESSORIES IN THE LOOPER COVER

A wide range of accessories comes with the bernette 610D. The most commonly used accessories are stored in the looper cover. This means they are always ready-to-hand.
