BERNINA¹¹

OESD Un-Encrypt Utility

for BERNINA artista 200 Encrypted Design Collection CD-ROMs

The following guide is on how to use the OESD Encrypt Utility so that older encrypted designs on BERNINA artista 200 design collection CD-ROMs can be un-encrypted and utilized on your OESD/BERNINA software or for newer BERNINA machines. The process will copy the .ART files from the encrypted CD, un-encrypt them and copy them to the computer's hard drive of your choice.

Items needed:

- IBM Compatible Windows PC with CD-ROM drive
- OESD Encrypt Utility application
- BERNINA artista 200 Encrypted Design Collection CD

How to Install the Unencrypt Utility Application:

Step 1 – Insert the enclosed CD-ROM into your CD-ROM drive:

• artista 730, Design CD-ROM (recovery & unencrypt tool)

Step 2 - In a moment, an installer will activate to begin the installation of this unencrypting utility.

Click Next to continue.

BERNINAth

for BERNINA artista 200 Encrypted Design Collection CD-ROMs

Step 3 – Next, the installer will confirm where the application will be installed onto the hard drive. It is advised that you allow it to install to the default directory.

Unencrypt -	InstallShield Wizard		x
Choose D Select fo	estination Location Ider where setup will install files.		
	Install Unencrypt to: C:\Program Files\Bernina\Unencrypt		Change
InstallShield –		< Bry Next >	Cancel

Click Next to continue.

Step 4 – Now, the installer is ready to begin copying files to your computer.

Click Install to continue.

BERNINA¹¹

OESD Un-Encrypt Utility

for BERNINA artista 200 Encrypted Design Collection CD-ROMs

How to Un-Encrypt a Design Collection CD:

Step 1 – Double click the Shortcut icon from the Desktop

OR

Go to START > ALL PROGRAMS > BERNINA > UNENCRYPT > LAUNCH OESD_ENCRYPT_UTILITY.EXE to open the program.

The following window will appear on screen:

•	AnsDisk Copy	×
DVD/CD Drive:	Z:\	Load
CD Rom Title:		<u>S</u> ave
Installation Directory:		E <u>x</u> it
CD Rom Contents: —		

BERNINAth

OESD Un-Encrypt Utility

for BERNINA artista 200 Encrypted Design Collection CD-ROMs

Step 2 - Insert the encrypted CD into the CD-ROM drive of your computer.

NOTE:

- If the autorun window for the encrypted CD activates after it is inserted into your CD-ROM, click the X in the upper left or right corner of the autorun pop-up window to close it out.
- If you have more than 1 CD drive on your PC, you may need to open My Computer to confirm which drive letter the CD was inserted into. The name of the collection should appear next to the CD-ROM drive letter (i.e. D:\764 Redwork for Children).

Step 3 – In the utility program window, on the *DVD/CD Drive:* line, select the CD-ROM drive where you inserted the collection CD. If you only have one drive on your computer, you will only have one choice.

•	AnsDisk Copy	X
DVD/CD Drive:	21	Load
CD Rom Title:	Z:\ 'N	<u>S</u> ave

NOTES

- The files that are saved from the utility will be in the .ART format.
- You will need embroidery software that can open .ART files to view these designs. If you do not
 own software that can read .ART files, OESD provides a free software program called the *OESD Magician Sizing by Simon*. This program offers the ability to open, size and rotate .ART
 files and then convert them to another home format such as .PES or .HUS. This program is
 available for download from <u>www.embroideryonline.com</u>. Go to the site, click on HELP from the
 left hand menu and then choose DOWNLOAD CENTER from the HELP page to access the
 download link.
- The title of the collection will show in the *Folder Name* for the design files that are copied to the hard drive. The program is able to only grab the first 32 characters (including spaces) of the collection number and title.
