

Basic Cutwork Instructions

SUPPLIES:

- Fabric
- Any firmly woven high quality fabric.
- Thread
- Isacord Polyester Embroidery Thread
- Stabilizer
- OESD Aqua Mesh Stabilizer
- Optional Notions
- Embroiders' Wand
- 505 Temporary Adhesive Spray

INSTRUCTIONS:

- Lightly spray the top of a hoop sized piece of OESD Aqua Mesh Stabilizer with 505 Temporary Adhesive Spray.
- Place the sprayed stabilizer onto the wrong side of the fabric in the design area and hoop.
- Place the hoop on the machine and begin stitching the design.
- AFTER the "cutwork guide stitch" has been stitched, remove the hoop from the machine. DO NOT remove the fabric from the hoop.

- Use the sharp point of an Embroidery Wand to gently pull the fabric apart from the stabilizer. Any enclosed area that is created by the first color of the design can be trimmed away to create the open work.
- Use a small sharp pair of scissors to clip away ONLY the fabric inside the guide stitches. Leave the stabilizer intact.
- Place the hoop on the machine again and continue stitching the remainder of the embroidery design.
