

Large Freearm Embroidery Hoop

1

Information

Scope of delivery

- 1× Embroidery Hoop
- 1× Embroidery Template
- 2× Embroidery Template Holder

Purpose

- To embroider T-shirts, bags and long tubular fabric starting from a circumference of 80 cm.

For your safety

Before using this accessory, please read this instruction manual as well as the instruction manual of your machine carefully.

Overview

- A Embroidery Template Holder
- B Embroidery Template
- C Outer line for embroidery field (only for BERNINA 5-Series)
- D Twist Lock
- E Release Button
- F Inner Ring
- G Outer Ring
- H Embroidery Hoop Connector
- I Push button

Application

Preparing the Embroidery Hoop

- > Attach the Template Holder to the Embroidery Template at the notches.
- > Place the Embroidery Template in the inner ring.
- > Before using the Embroidery Hoop for the first time, calibrate the Embroidery Hoop in the Setup Program of the machine. Refer to the instruction manual of the machine.
- > Squeeze the Release Buttons underneath the Twist Lock.
 - The locking mechanism is released.
- > Remove the outer ring.

Hooing the fabric

- > Mark the center of the embroidery motif on the fabric with a water-soluble pen. For items with a closed seam, such as bags, make sure there is at least 7 cm of fabric from the inside left edge of the hoop to the closed seam.

- > Place the stabilizer on the wrong side of the fabric to be embroidered and fix it in place.
- > Place the outer ring beneath the fabric to be embroidered so that the center of the embroidery motif and the center of the ring are approximately on top of each other. (Fig. 2)
- > Place the inner ring with the Embroidery Template on the fabric so that the marked center and the center of the template are exactly on top of each other.
- > Pretension the Embroidery Hoop by using the Twist Lock until the hooped material is held in place lightly. To do this, turn the Twist Lock clockwise.
- > Pull the fabric and the stabilizer gently and evenly taut in the Embroidery Hoop.

- > Turn the Twist Lock clockwise until the Embroidery Hoop is completely fastened with a clearly audible click. (Fig. 3)
- > Remove the Embroidery Template.

Attaching the hoop

- > Move the Embroidery Arm in the «Hoop Indicator/Select Hoop» to the left and push the hooped material over the Freearm of the machine.
- > Attach the hoop. Refer to the instruction manual of the machine. Make sure that there is no fabric under the Embroidery Hoop. For bags with long handles, pin the handles in place.
- > Select the Embroidery Hoop on the machine – «L-FA».
- > If the needle position and the center of the Embroidery Hoop are not aligned, calibrate the Embroidery Hoop in the Setup Program of the machine. Refer to the instruction manual of the machine.
- > Open the embroidery motif on the machine and adjust as desired.
Please note: Applications with CrystalWork are not suitable for this Embroidery Hoop.
- > Rotate and align the embroidery motif as desired. To do this, use the function «Check Embroidery Motif Size» or, if available, the «Pinpoint Placement». (Fig. 4)

Please note (only 8-Series):

- > Remove the Embroidery Hoop before opening the Bobbin Cover, e. g. to change the bobbin.

Removing the Embroidery Hoop

- > Refer to the instruction manual of the machine.
