Stabilizer

- 1- 10" x 15" piece OESD Fuse and Fleece (or large enough to fit hoop)
- 1 - 6" x 10" piece OESD Fuse and Fleece
- 1 - 6" x 10" piece OESD Fusible Woven CutAway

Fabric/Notions

- 2 - 6" x 10" pieces of fabric
- 17" - ½" wide elastic
- Expert Embroidery Tape Tearaway
- Iron

STEP 1

- Hoop one layer of Fuse and Fleece, fusible (shiny) side up.

- Attach hoop to the machine.

STEP 2

- Fuse the 6" x 10" Fusible Woven to the back of one of the fabric pieces.
    - This is the front of the mask.

- Fuse 6" x 10" Fuse and Fleece to the wrong side of the other 6" x 10" fabric.
    - This is the back of the mask.

STEP 3

- Stitch Color 1, *Placement Stitch*.

INSTRUCTIONS

STEP 4

- Place the 6" x 10" front fabric right side up, over the placement line.

- Tape in place.

STEP 5

- Stitch Color 2, *Tackdown*.

STEP 6

- Continue stitching design.

- Stitch *Left Side Elastic Placement Stitch*.

STEP 7

- Place one end of the elastic over the placement line so that the cut edge extends ½" outside of the mask.

- Tape in place.

STEP 8

- Stitch *Left Side Elastic Tackdown*.

STEP 9

- Stitch *Right Side Elastic Placement Stitch*.

INSTRUCTIONS

STEP 10

- Place the other cut end of the elastic over the placement line, so that the cut edge extends ½" outside of the mask.

- Make sure the elastic is not twisted.

- Tape in place.

STEP 11

- Stitch *Right Side Elastic Tackdown*.

STEP 12

- Tape the excess elastic to the center of the mask.
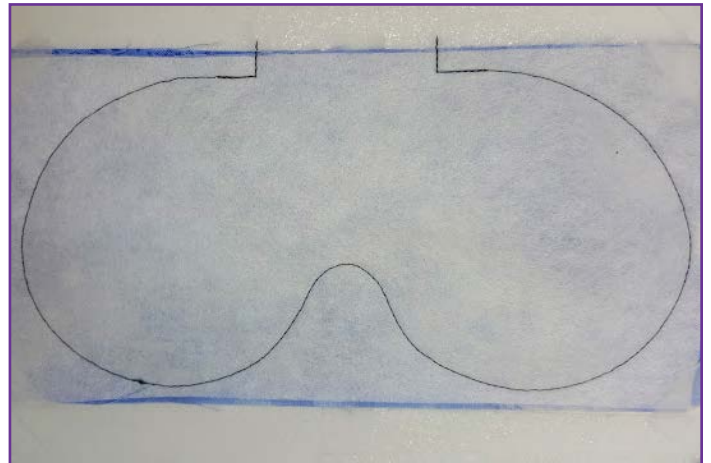

INSTRUCTIONS

STEP 13

- Place the back fabric piece, right sides together with the front.
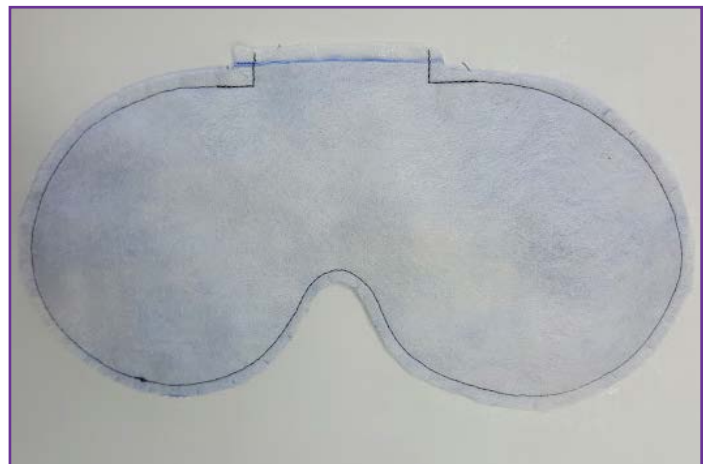

- Tape in place.

STEP 14

- Stitch *Seam,* use a thread color that matches fabric.

STEP 15

- Remove the hoop from the machine and the design from the hoop.

- Trim with an approximate ¼" seam allowance.

- Clip into the seam allowance around the curves.

INSTRUCTIONS
