BERNINA 710 - Firmware Update

Check the firmware version of your BERNINA 710

1.

Go to the "Setup" of your BERNINA 750 sewing computer by clicking on the soft key:

2.

Open the information section:

3.

Press the symbol

On the screen of your BERNINA sewing computer you will see which firmware versions are Installed on your machine.

On the screen you will see which firmware versions are installed on your machine. If any of the first Three (Firmware, Data, Boot loader) versions have a lower value as shown below, an update is recommended.

4.
