

Toolbox version 1.17.0.1731

Dear Customer,

for the recent problems regarding app crashes on the new Mojave OS, we are pleased to introduce the newest Toolbox release.

The only difference between the new Version 1.17.0.1731 and the older Version 1.17.0.1299 is the bugfix for the Mac Mojave OS.

Please Note: This is a fix for Mac users only, Windows user will not need a update for the Version 1.17.0.1299.

Best Regards
BERNINA International AG
