

BERNINA 780 - Firmware Update

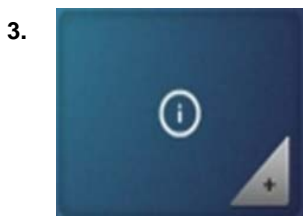

Check the firmware version of your BERNINA 780

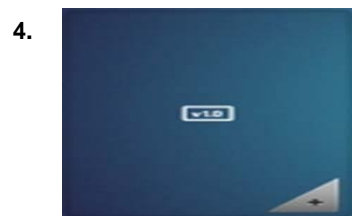

Go to the "Setup" of your BERNINA 780 sewing computer by clicking on the soft key:

Open the information section:

Press the symbol

Press the symbol

On the screen of your BERNINA 780, you will see which firmware versions are installed on your machine.

On the screen of your BERNINA 880, you will see which firmware versions are installed on your machine. If any of the first three (Firmware, Data, Bootloader) versions have a lower value as shown below, an update is recommended.

Version Software:	VXX.XX.XX
Data:	VXX.XX.XX
Version Bootloader:	XX.XX.XX
EMB Applikation Version:
