Experience the bernette Milan models at your dealer's.

Discover the world of bernette sublime. Each model has so much to offer: robust construction, numerous functions and features, and an appealing design for all ages. The bernette sublime sewing, embroidery and overlocking machines are made by a modern, highly qualified manufacturer in Asia, while BERNINA is responsible for quality control and guarantees a high standard of performance. Thus it is possible to offer the bernette sublime Series to our customers at an outstanding price/performance ratio.

# MILAN S

The bernette Milan 8 computerised sewing machine fulfils every conceivable demand creative users could make of a budget-priced, high-manufacturing-quality machine. Thanks to its ergonomically arranged control keys and a high-resolution matrix display unsurpassed in its class, the Milan 8's versatility and ease of use enable quick, professional-looking garment alterations and repairs. For ambitious users, the bernette Milan 8 offers a number of stretch and quilting stitches and 10 different buttonholes. Creative sewers too will guickly discover just how versatile this machine is, with its decorative stitches and alphabets that can be saved in pattern combinations.

The lighting system with two LED lights and the Quick Reference guide integrated into the base plate facilitate working with this compact sewing machine, whose dimensions allow for space-saving household storage. In addition, the various presser feet are also handily accommodated in the base plate.

### Decorative stitches

### **Alphabet**

abcdefghijklmnopqrstuvwxyz ÄÅÆÑÖØÇÜäãåæëèéêñöõøìcüűß& 89 90 91 92 93 94 95 ?!\_',.-

### LCD display and slide speed regulator

The reverse-sewing

manent reverse feed for the

appropriate stitch patterns before you begin sewing.

button lets you switch on per- end.

**Optimum sewing light** 

Two LED lights, one in the frame

and one in the needle-bar area,

provide optimum illumination of

the work area.

Once the stitch pattern in question is selected, it is displayed in the LCD display with the recommended basic setting. The slide speed regulator allows you to steplessly adjust the maximum speed. The electronic motor regulation ensures strong, consistent needle penetration power.

### Start/stop button

# MILAN 3

The bernette Milan 7 is the top model of the mechanical bernette Milan range. Equipped with the widest range of stitches, this machine is your professional partner of choice, even for complex sewing tasks. No matter what speed you sew at, the electronic motor regulation ensures consistently powerful needle penetration and a steady speed. The start/stop button and the speed regulator can be used instead of the foot control. A superb selection of stitches, infinitely variable speed control and a wealth of additional features and functions make the bernette Milan 7 the ideal companion for all your sewing adventures.

www.mybernette.com

A generous range of stitches and plenty of scope for giving creative, individual shape to your ideas - that's what the bernette Milan 5 offers. Ease of operation, automatic one-step buttonhole, 7mm-wide decorative stitches and simple threading allow you to accomplish all sewing tasks easily and confidently. The base plate guarantees smooth and quiet running and absolute stability. The bernette Milan 5's handy size also makes it a popular companion on all your travels and at workshops and courses.
