ACCESSORY OF THE MONTH ZIPPER PRESSER FOOT WITH GUIDE

FOOT #14 and FOOT #14D

#14

#14D

This zipper foot resembles the standard Zipper foot #4 and #4D, but features an added bar across the top of the foot which serves as a guide. It is suitable for the precise, professional insertion of zippers of all sizes.

Owing to its wavy shape, this adjustable guide rides right over the coils of the zipper. The result is a neat, evenly inserted zipper. Due to the guide, this foot is also a useful aid when doing edge-stitching, topstitching and even sewing fine pleats.

#54

FOOT #54

In addition to all the features of Presser feet #14 / #14D, this presser foot comes with a non-stick coating on the sole to ensure it slides smoothly over 'sticky' fabrics such as leather or plastic.
